About Us

I am an Autism Intervention, Communication & Behaviour Specialist & a Master Practitioner in Neuro-Linguistic Programming (NLP). I offer a wide range of unique services for the autism community; Life Coaching; Mentoring; Advocacy support; Autism Awareness/Intervention/Communication/ Behaviour Management/ experiential workshops & training.

I specialize in using NLP as a model to better understand autism through all the senses and the

three minds (cognitive, emotional & instinctive). I offer my services at client's Homes and/or in a Private Practice room.

My services are client centred and solution focused and include personal consultations for mentoring, coaching & advocacy support; assessments of intervention need; change work for transforming coping to living with autism; behaviour management & improvement strategies; self discovery; life planning; unique experiential workshops & training for professionals and organisations; public speaking and small group talks.

I work in partnership with other professionals already working with the individual and whole family. I hold a DRB certificate. I am fully insured, hold a Masters degree in Autism and have 18 years experience of working and living with autism.

My mission is to enable & empower children, adults & whole families be the best they can be & live happy & fulfilling lives and inform and train those working with people with autism to do the same.
